

PRODUCT RELEASE

GT Series 1 introduces a new product!

Mesh Screen for radiator ducts/radiators/coolers

We are offering two (2) choices for mesh screen:

1/4" zinc plated mesh: Wire diameter for this screen is .025. Mesh is very pliable and can be formed around curves. Rust resistant if left unprotected. Most often used to cover brake and radiator ducts. Durability is very high. This is available by the foot in 48" widths.

This product is distributed through: Glenn Yee Motorsports, LLC
